

Presentation #2: Technology and Social Stratification

A. Choose a reading from the list on Blackboard. Add your name next to the reading on the wiki to claim it.
Note: Each person must select a different reading.

B. On Monday you will give a presentation to the class about your article. There also will be a question/discussion period.

Content of presentation:

- First, share one item you would like feedback on from the class. This will not count against your time.
- Next, briefly summarize the article
- After that, present the author's argument relating to technology and social stratification.
- Finally, evaluate the author's argument
 - Did you find the author's argument convincing? Why or why not?
 - What takeaway(s) do you have from the article relating to the interplay of technology and structural inequality?

Delivery of presentation:

- Oral presentations should be 5 minutes in length. I will give you time warnings, but you will have to stop if you are still presenting after a full additional minute has passed.
 - If you submit an outline of your presentation to me via Blackboard prior to presenting, use a slideshow presentation for your presentation, or provide a handout, you may present for up to eight minutes. Timing is extended only in these situations since they demonstrate that you have taken an extra step to prepare and structure your presentation and will not simply be filling the extra time in an unproductive way due to lack of organization. If you plan to use a slideshow presentation, submit it via Blackboard in advance of your presentation.
- You may use notes but should not read from your presentation.
- Please make sure to speak audibly and try to be engaging.

See the rubric on the next page for the grading criteria.

Your presentation reflection will also be incorporated into your presentation grade.

Rubric	Unacceptable (D or F, 0-69.99)	Approaching Competence (C, 70-79.99)	Satisfactory (B, 80-89.99)	Proficient (A, 90-100)
